MATHEMATICS AND MECHANICS
OF COMPLEX SYSTEMS

With great pleasure it is announced that the 2019 Eugenio Beltrami Prize for Senior Engineering Scientist Prize will be presented to Prof. Ferdinando Auricchio for his outstanding research and achievements in computational solid and structural mechanics.

Ferdinando Auricchio is Professor of Solids and Structural Mechanics, Department of Civil Engineering and Architecture University of Pavia, Italy, Research Associate at IMATI-CNR (Institute for Applied Mathematics and Information Technologies of the National Research Council), Pavia, Italy. He received the Euler Medal by ECCOMAS (European Community of Computational Methods in Applied Sciences) in 2016 and he became Fellow Award by IACM (International Association for Computational Mechanics) since 2012. From 2013 to 2019 he served as Vice-President of ECCOMAS. In 2018 he was appointed as a member of the Italian National Academy of Science, known also as Accademia dei XL.
