MATHEMATICS AND MECHANICS
OF COMPLEX SYSTEMS

We are pleased to announce that the 2019 Levi-Civita Prize for the Mathematical and Mechanical Sciences will be presented to Prof. Claude Viterbo for his outstanding research and achievements in the theory of Lagrangian, Hamiltonian systems and Symplectic topology which have been an exciting and challenging stimulus to a whole generation of scientists. The Levi-Civita Prize carries a silver medal and a diploma and it is accompanied by The Levi-Civita Lecture honoring the memory of the famous Italian mathematical physicist with a distinguished contribution of the recipient of the Prize. Claude Viterbo is Professor Classe Exceptionnelle (Distinguished professor) at Université de Paris-Sud, and is presently on duty at Ecole Normale Supérieure Paris.
